List of Figures	xxii
List of Tables	xxii
List of Equation	xxii
List of Abbreviations	xxiii
1. Introduction	1
2. Motivation and Scope	6
2.1 Motivation	6
2.2 Scope	13
3. Methodology	14
3.1 Method of processing and analysis	15
3.2 Data Sources	23
3.3 Key Assumptions	24
3.4 Limitations	24
4. Results and Discussion	26
4.1 Review of the critical minerals	26
4.2 Bottom-up analysis: An alternative approach to determine mineral criticality	34
5. Takeaways and Recommendations	37
5.1 Institutional reforms to aid better analysis	37
5.2 Domestic interventions: Enhanced exploration and R&D in mining and mineral processing technologies	40
5.3 Promoting R&D on enhancing recyclability and finding substitutes for critical minerals	43
5.4 International interventions: Strategic acquisition of mines and signing of diplomatic and trade agreements	46
Bibliography	49
Annexures	52
