Executive Summary	

## Chapter – I – Women and Indian Science

1.1 Indian Scientific Background	
1.2 Scientific Organizations in India	
1.3 Who are Scientists?	
1.4 Indian Women and Science	
1.5 Why Women Scientists	
1.6 Global Research Output by Women Scientists	
1.7 Existing Researches on the Contributions of Women Scientists/ Academics of the World and India	
1.8 Factors influencing the research performance by women	
1.8.1 Personal determinants	
1.8.2 Environmental factors	
1.9 Aim	
1.10 Method	
1.10.1 Identification of Research Laboratories	
1.10.2 Identification of women scientists	
1.10.3 Data Source	
1.10.4 Analysis	
1.11 Limitations of the study	

## Chapter II – Highly Decorated Women Scientists in Indian S&T Laboratories

## Chapter – III – Inconsistency in Searching Indic Women Names: Experience from Web of Science Database

3.1 The Issue	
3.2 Strategy followed to check inconsistency	
3.3 Differences in Search Results of ‘Author Search’ field and ‘Basic Search’ by author field	
3.4 Duplication of Records by the same Author	
3.5 Inconsistencies in Search Results	
3.6 Lesson learnt	
3.7 Way Forward	

## Chapter – IV – Analysis & Interpretation of Data

4.1 Research Performance in terms of Publications, Patents, Awards & Citations	
4.2 Research Performance in terms of Scientist’s Rank, Degree & Tenure of Service	
4.3 Research Performance in terms of Authorship & Collaborations pattern	
4.4 Research Performance in terms of Subjects of Interest	
4.5 Conclusions & Recommendations
