|--|-----------|
| Acknowledgements | i |
| Summary | ii |
| 1. Introduction | 1 |
| a. Importance of Expert system | 1 |
| b. Role of Computers | 3 |
| c. Timber Identification - An overview | 3 |
| o Existing system for timber identification | 4 |
| o Problem in present system of timber identification | 4 |
| o Proposed system for timber identification | 5 |
| d. Origin of problem | 6 |
| e. Expected Improvement | 6 |
| 2. Objectives of the study | 7 |
| 3. Review of Literature & existing databases/programs | 9 |
| 4. Results | 15 |
| a. Module 1: Feature Details | 16 |
| b. Module 2: Input/Database Forms | 17 |
| Sub module: Wood Anatomy | 17 |
| Sub module: Wood Images | 18 |
| Sub module: Wood Mechanical properties | 18 |
| Sub module: Wood Uses | 19 |
| Sub module: Wood Distribution | 19 |
| c. Module 3: Wood Identification Module | 19 |
| d. Module 4: Wood Distribution Module | 20 |
| e. Module 5: Wood Properties Module | 20 |
| f. Module 6: Wood Uses Module | 20 |
| 5. Future Scope of Study | 21 |
| 6. References | 22 |
| 7. Research papers published | 29 |
| 8. Table 1: List of Wood Anatomical Features | 30 |
| 9. Table 2: List of Commercial timbers of India | 35 |
| 10. Databases | |
| ANNEXURE I: FEATURE DETAILS | 40 |
| ANNEXURE II: WOOD ANATOMICAL DATA | 97 |
| ANNEXURE III: WOOD IMAGES | 133 |
| ANNEXURE IV: MECHANICAL PROPERTIES | 188 |
| ANNEXURE V: USES | 200 |
| ANNEXURE VI: DISTRIBUTION | 219 |
